CRANE & SUSTAINABILITY

Crane USA is dedicated to your environment both inside and outside your home. We know if cleaned and maintained properly, our products last for years helping to reduce unnecessary use of resources and emissions making new products.

The Crane manual you are holding is from recycled materials with no added finishes or harmful dyes. If the humidifier should no longer operate, please be sure to dispose of the unit in an environmentally friendly way by taking it to a public collection point.

SAFETY INSTRUCTIONS

**PLEASE DO NOT PLACE BROKEN HUMIDIFIERS WITH YOUR
REGULAR HOUSEHOLD WASTE**

IMPORTANT SAFETY INSTRUCTIONS

WARNING! READ AND SAVE THESE INSTRUCTIONS. Failure to follow all the instructions listed below may result in electric shock, fire and/or serious personal injury.

1. **It is advisable to carry humidifier with two hands.**
 2. **DO NOT operate outdoors. This humidifier is intended for indoor use only.**
 3. Always have water in the Water Tank when operating the unit.
 4. Use only clean, cool tap water to fill the Humidifier body (filtered or distilled water is recommended to avoid white dust if tap water is too hard. **DO NOT use hotwater.**
 5. Always have the Top Cover and Mist Lid in place while the unit is operating. Place the humidifier so the mist aims away from children, walls, furniture, and electrical appliances.
 6. Use only a 110-120VAC outlet.
- * ALWAYS plug and unplug unit with dry hands to avoid electric shock.**
7. Never operate the unit with a damaged cord or plug.
 8. Always place the unit on a smooth, flat, lint-free, non-metallic, waterproof, and level surface and position unit away from direct sunlight. Keep the cord away from heated surfaces and areas where it could be walked on or tripped over. Unplug the unit when not in

SAFETY INSTRUCTIONS

use and whenever you clean or move the unit.

9. Do not add medication of any type into this humidifier. Do not cover any openings on the unit or insert objects into any openings.
10. The unit should not be left unattended in a closed room as the air could become saturated and leave condensation on walls or furniture. Leave room door partly open when humidifier is being operated.
11. When cleaning the inside of the humidifier, keep water away from the Fan Vent. **Turn off and unplug the humidifier to wipe the exterior** (except the electrical controls) with a damp cloth. A humidifier requires regular cleaning. Please refer to the CLEANING INSTRUCTIONS in this manual.
12. Do not tilt or tip the humidifier or attempt to empty or fill it while it is in operation. Do not remove the cover from the unit while it is on.
13. Do not inhale the mist/vapor expelled from the humidifier or drink water from the tank.
14. Do not use detergent to clean any parts of the unit that contain water. Detergent film dissolved in the water supply can interfere with the output of the unit. Instead, always use white vinegar mixed with water to clean the humidifier.

SAVE THESE INSTRUCTIONS!

SAFETY INSTRUCTIONS

WARNING! Read and understand all instructions. Failure to follow all instructions listed below may result in electric shock, fire, or serious personal injury. The warnings, cautions, and instructions discussed in this instruction manual cannot cover all possible conditions and situations that may occur. It must be understood by the user that common sense and caution are factors which cannot be built into this product but must be supplied by the user.

THIS HUMIDIFIER IS NOT A TOY!

Do not let your child play with this humidifier. Serious injury and electrocution might be possible. This humidifier must be operated by an adult only. Children should be supervised to ensure that they do not play with the humidifier.

SAVE ALL INSTRUCTIONS!

CAUTION: A short Power Supply Cord is provided to reduce the risk of personal injury resulting from becoming entangled in or tripping over a longer cord. Extension cords are available from local hardware stores and may be used if care is exercised in their use. If an extension cord is required, special care and caution is necessary. Also, the extension cord must be (1) marked with an electrical rating of 125 V and at least 13 A., 1625 W., and (2) the cord must be arranged so that it will not drape over the countertop or tabletop where it can be pulled on by children or accidentally tripped over.

ELECTRIC POWER

If the electric circuit is overloaded by other appliances, your humidifier and/or appliances may not operate properly. The humidifier should be operated on a separate electrical circuit from other operating appliances.

SAFETY INSTRUCTIONS

POLARIZED PLUG

This humidifier has a polarized plug (one blade is wider than the other). As a safety feature to reduce the risk of electrical shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

SAFETY WARNING

Although your humidifier is easy to operate, for your safety, the below warnings must be followed:

1. Do not place the humidifier near a heat source.
2. Never leave the humidifier unattended while connected to the electrical outlet.
3. To avoid any accidents, never cover the Mist Lid when the humidifier is in operation.
4. Use the humidifier on a smooth, flat, lint-free, non-metallic, waterproof, and level surface away from water.
5. Do not unplug from the wall socket by pulling on the supply cord.
6. The humidifier must be unplugged:
 - A. Before either filling or emptying the humidifier.
 - B. Before any cleaning or maintenance is performed.
 - C. After each use.
 - D. If it appears to be faulty.

TECHNICAL SPECIFICATIONS

Rating Voltage	AC 120V
Wattage	25W
Frequency	60 Hz
Water Tank Capacity	1.2 Gallons
Run Time Per Tank	Up to 45 hours (low mist output); Up to 15 hours (high mist output)
Humidifying Capacity	Up to 500 sq. ft.
Noise Level	< 37 decibels from 3 ft away

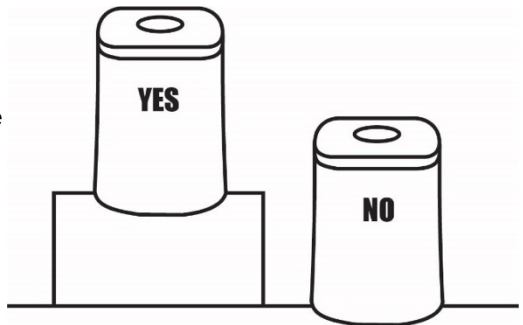

BEFORE EACH USE:

CHECK HUMIDIFIER PLACEMENT:

Place the Humidifier on an elevated, non-metallic, lint-free, waterproof, level surface at least 2 feet above the floor.

DO NOT PLACE ON CARPET OR TOWEL. The fan vent is located on the back of the humidifier base. The fan vent **MUST NOT** be obstructed.

DO NOT PLACE ON WOOD SURFACE or near furniture that can be damaged by too much moisture.

TECHNICAL SPECIFICATIONS

A NOTE ABOUT HUMIDITY

- To reduce excessive humidity or condensation, especially in small rooms, leave the room door open and adjust mist intensity to the low output setting.
- Too much humidity in the room may allow moisture to accumulate on surfaces where bacteria and fungi can grow. Moisture that gathers may also damage furniture and walls, especially wallpaper.

CAUTION

- **DO NOT attempt to operate the humidifier without water in the Water Tank.**
- **DO NOT plug or unplug the Power Cord with wet hands as electric shock could occur.**

ASSEMBLY & USE

ALWAYS use fresh cool water when operating the humidifier.

1. Place empty water tank onto the base of the unit.
2. Remove the top cover from the water tank.
3. Fill water into the water tank. Do not exceed the MAX level mark. Filtered or distilled water is recommended to avoid white dust if tap water is too hard.

Note: Essential oils may be added to the water in the water tank.

- **DO NOT** fill water all the way to the rim.
- **DO NOT** use hot water.
- **DO NOT** add any medication or salt.
- **DO NOT** pour water down the Mist Chamber

ASSEMBLY & USE

4. Place top cover on humidifier water tank, making sure it fits together securely. The circular mist lid will line up with the mist chamber in the unit's water tank.

Note: Do not attempt to move the humidifier while full of water. Doing so may cause leakage.

5. Plug the power cord into a wall socket and turn on the unit by using the Control Buttons.

6. **POWER:**  Touch the button to turn ON/OFF the humidifier.
 - 1 touch – the unit is ON, mist output level 1
 - 2 touch – the unit if ON, mist output level 2
 - 3 touch – the unit if ON, mist output level 3
 - 4 touch – the unit if OFF

7. **TIMER:**  Touch button to set the Timer. Touch the button one time for each hour you want the unit to run for 1-12 hours. The 13th press will turn off the timer function.

8. **LIGHT:**  Touch the button to turn the LED light ON/OFF and select light mode.

1 Touch – Sleep Support night light. A soothing warm toned night light will be on and dim to off over the course of two hours to support soothing and peaceful sleep.

2 Touch – power on color changing night light.

3 Touch – locks the unit to the displayed color of night light.

4 Touch – powers off the night light.

9. **PERCENTAGE MODE:**  Set the humidity to a given percentage between 30% and 75%. Raise the set humidity by 5% each time you touch the percentage button. After you set your desired humidity percentage, that percentage will

ASSEMBLY & USE

AS

flash three times before reverting to the current humidity reading in the space. Your unit will indicate to you that it is running in Percentage mode by displaying a percentage symbol. Your unit will stop producing mist once the desired humidity percentage has been reached. To turn your unit off from Percentage mode, press the percentage button until 75% is displayed, and then press it one more time, and Percentage mode will cycle off.

Humidifier will remain on, even if you turn off humidity percentage setting. When humidity percentage is up to 85%, your unit will stop producing mist until the humidity percentage drops to 79%, and in this process, fan always keeps working.

10. When the humidifier runs out of water, a red light will show on the display screen and the unit will shut off. This is a safety feature to prevent the humidifier from possibly overheating and damaging the Nebulizer. Unplug the humidifier before removing the top and refilling the humidifier.

NOTE: The unit will always display the current humidity in the room

MAINTENANCE

Cleaning and disinfecting on a regular basis are important for maintaining the performance of your humidifier.

IMPORTANT: Water left in the tank or base when not in use may result in buildup of mineral deposits and bacteria which may inhibit the output efficiency as well as void the warranty. If water remains in the Water Tank for more than a day or two, bacterial growth is possible.

DAILY MAINTENANCE

1. Turn off, unplug from outlet, remove top and empty water from basin and water tank daily. When emptying the basin be sure to pour away from the float direction.
2. Remove the cover, mist nozzle and water tank and rinse with cool water.
3. Allow top & base to air dry if not in regular use.
4. Leave top and water tank off the base until ready for next use.

WEEKLY MAINTENANCE

1. Turn off, unplug from outlet, and empty water from tank.
2. Wash the top, mist lid and water tank with a white vinegar and water solution by wiping each piece and rinsing.
3. Fill tank halfway with warm water, add 2 - 4 tablespoons of white vinegar and let sit for 20 min. Empty tank & rinse with plain water.
4. Fill the base with one cup of warm water, add 2 -4 tablespoons of white vinegar and let sit for 20 minutes. Empty base & rinse with plain water. Make sure to pour water away from the float direction.

TIP: Clean the nebulizer with a damp cloth or cotton swab after soaking.

MAINTENANCE

NEVER IMMERSE HUMIDIFIER BASE IN WATER. DO NOT put the base in the dishwasher.

END-OF-SEASON MAINTENANCE & STORING YOUR HUMIDIFIER

1. Turn off, unplug from outlet, and empty water from water tank and base.
2. Follow instructions for weekly maintenance above.
3. Let all parts dry completely.
4. Store humidifier in a cool, dry place.
